

Digital Masterclass By Dr. Sethu Madhavan

22 April, 2020

Another engaging digital session was conducted by **Dr. P.Sethu Madhavan, MCIPD, CPsych(BPS) , PMP, SCP, SPHR, GPHR** on “**Development & Use of Instruments for Research**”. Fellow students had the opportunity to learn from one of the HR Stalwarts. The session focussed on variety of instruments a researcher can use and work in a quality manner for research inputs. The session was very informative and was well appreciated by the fellow students.

Dr.Sethu served AHRD as Director and member of the board during 1995-97 and has contributed significantly to AHRD and its growth specially in the area of Individual and Organisational assessment centres. We look forward to many more such knowledge sharing sessions from Dr.Sethu.
